LEGISLATIVE COUNSEL'S DIGEST

SB 1355, as amended, Runner. Veterans: ~~academic leave. driver's license: designation.~~

Existing law requires the Department of Motor Vehicles to issue driver's licenses to qualified individuals containing specified information.

This bill would require the department to include the designation "VETERAN" on a driver's license issued to a veteran who requests the designation and provides proof of his or her military service and honorable discharge.

~~(1) Existing law, the California Military Families Financial Relief Act of 2005, generally provides financial relief, as specified, for a service member who is called to active duty. Among other provisions, the act requires, if requested by a student granted an academic leave of absence for military service, not later than one year after the student's release from military service, other than a dishonorable release, that the institution in which the student is enrolled either make arrangements to reasonably accommodate and assist the student to meet coursework requirements that he or she may have missed due to military service, or refund the tuition and fees paid by the student for the academic term~~

~~in which the student is required to report for military service, as specified, and as elected by the student.~~

~~The act holds a person who violates provisions of the act liable for actual damages, reasonable attorney's fees, and costs incurred by a person seeking to enforce his or her rights under the act. Existing law also waives the filing fee and court costs for a person seeking to enforce the specified rights.~~

~~Existing law establishes the University of California, the California State University, the California Community Colleges, and independent institutions of higher education as the 4 segments of postsecondary education in this state. Existing law provides that each of the 3 segments of public higher education are to establish, and update as necessary, a written policy concerning students who are called to active military service. Existing law further provides that this policy ensure that those students do not lose academic credits or degree status and that the policy provides for a refund of fees paid by the student for the term in which he or she was called to active military service.~~

~~This bill would add to the California Military Families Financial Relief Act of 2005 a provision that requires that, if an academic leave is requested by a student who is a member or honorably discharged veteran of the Armed Forces of the United States, the California National Guard, or the State Military Reserve because of a disability or medical disorder documented or diagnosed to have resulted from an injury or trauma suffered during active military service, a postsecondary educational institution, as defined, shall credit tuition and fees paid for the current academic term toward a subsequent academic term or refund those amounts, under certain conditions, as specified.~~

~~The bill would authorize an affected student who resides in this state to bring an action, in a court of competent jurisdiction in the county in which he or she resides, against an institution that fails to comply with the requirements of the bill. The bill would authorize an affected student who resides outside of the state to bring an action in a court of competent jurisdiction in the county in which the postsecondary educational institution is located.~~

~~By imposing new duties on community college districts this bill would impose a state-mandated local program.~~

~~The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.~~

~~This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: ~~yes~~-no.
